Commissioner for Patents

1. The information disclosure statement filed 20 December 2010 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because, contrary to Applicant's certification that the information contained in the information disclosure statement was first cited in a communication from a foreign patent office not more than three months prior to the filing of the information disclosure statement, it appears that the English translation of the communication from the foreign patent office shows a dispatch date of 07 September 2010, which date is more than three months prior to 20 December 2010.

It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).
